

FROM THE GULF OF NAPLES TO THE GULF OF PALMA: WIZZ AIR ANNOUNCES A NEW ROUTE

Distances across the Mediterranean are shortened: tickets go on sale on 12 January for the new connection launching on 12 May. The airline will link Naples with Balearic Islands.

Naples, 12 January 2026 – Wizz Air, the airline chosen by over 21 million passengers in Italy in 2025, announces the expansion of its network from Naples International Airport–Capodichino with the launch of a new route to **Palma de Mallorca**.

The new connection will link the beautiful capital of the Campania region with one of the most iconic destinations in the Balearic Islands, **starting on 12 May 2026**. Designed to meet the needs of travellers seeking a getaway to Spain's mild climate and flexible travel options, the route will operate with departures on Tuesdays, Thursdays and Saturdays.

Tickets are already available on wizzair.com and via the official WIZZ app, with fares starting from just €19.99. With this new launch, Wizz Air further strengthens its presence in Campania and Southern Italy, enhancing connectivity and offering Italian travellers new opportunities to reach the exclusive beaches of the Spanish island.

Palma de Mallorca, the vibrant capital of the Balearic Islands, is a dynamic Mediterranean destination renowned for its balance of historical heritage, coastal charm and contemporary lifestyle. Overlooking a wide bay and home to one of the most important ports in the western Mediterranean, the city boasts a rich cultural scene, a mild year-round climate and easy access to some of Spain's most renowned beaches, making it an ideal choice for both leisure travel and short breaks.

All flights on the route will be operated with the latest-generation **Airbus A321neo aircraft**. These state-of-the-art aircraft ensure a significant reduction in fuel consumption and noise emissions, while delivering high levels of passenger comfort, in line with Wizz Air's strong focus on traveller well-being.

The Naples base, where Wizz Air operates two aircraft, continues to confirm its strategic importance within the airline's Italian network. In 2025, Wizz Air operated nearly 4,000 flights from Naples, carrying more than **797,000 passengers** and offering over **880,000 seats**. Operational efficiency continues to improve, with a completion rate reaching 99.7% and on-time performance increasing by 17.2% compared to the previous year.

This new route represents a further step forward in strengthening Naples' international offering, reinforcing the role of Capodichino Airport as a key hub for tourism and cultural exchange between Southern Italy and some of the Mediterranean's most renowned destinations.

Salvatore Gabriele Imperiale, Corporate Communications Manager at Wizz Air, commented: "Bringing the Gulf of Naples to the heart of the Balearic Islands is a challenge we embrace with enthusiasm and one that reflects our vision of an increasingly connected Mediterranean. This new route breaks down geographical barriers between two destinations that are unique in terms of history, beauty and dynamism. We will continue to invest decisively in fleet innovation and in the quality of services offered at the Campania airport, ensuring that Naples remains a central and indispensable hub within our European network. Our commitment is to offer passengers not only the freedom to travel with maximum flexibility, but also the assurance of constant connectivity that can foster new tourism flows and strengthen cultural and economic ties between Campania, the rest of Europe and beyond, making travel an accessible, modern and high-quality experience."

Margherita Chiamonte, Aviation Commercial Director at GESAC, added: "Wizz Air continues to demonstrate strong confidence in our airport, investing consistently and accurately responding to market signals which, in recent years, have increasingly favoured high-profile beach and leisure destinations such as Palma de Mallorca. We are confident that this new connection will be very well received by our catchment area and will further enrich the international offering of Naples Airport."

From Naples, Wizz Air currently offers a wide range of connections that reinforce the city's role as a strategic gateway to Eastern Europe, the Mediterranean and the Middle East. The airline's network includes direct flights to Tirana (Albania), Yerevan (Armenia), Sofia (Bulgaria), Sharm el-Sheikh (Egypt), Budapest (Hungary), Tel Aviv (Israel), Skopje (North Macedonia), Chişinău (Moldova), Bratislava (Slovakia), as well as numerous destinations in Poland – Warsaw and Katowice – and Romania – Timișoara, Craiova, Cluj-Napoca, Braşov and Bucharest. These are complemented by services to Spain, with the new connection to Palma de Mallorca further expanding the leisure offering and consolidating the international connectivity of Naples–Capodichino Airport.

Wizz Air continues to strengthen its position as a key carrier in the Italian aviation landscape. Nationwide, the airline currently operates 263 routes across 32 countries, serving 26 airports with a modern fleet of 28 Airbus A321neo aircraft based in Italy. The impact on traffic is significant: in 2025, Wizz Air carried over 21 million passengers, marking an 8.85% increase compared to the previous year. With more than 91,000 flights operated and an outstanding completion rate of 99.8%, the airline demonstrates not only operational efficiency but also a strong commitment to making Italy its primary operational base.

|----------------------------|--------------------------------|---------------------|--------------|
| NAPLES - PALMA DE MALLORCA | Tuesday, Thursday and Saturday | 19,99€ | 12 May 2026 |

About Wizz Air

Wizz Air operates a fleet of 257 Airbus A320 and A321 aircraft. A dedicated team of aviation professionals delivers superior service and very low fares, making Wizz Air the airline of choice for 63.4 million passengers in the 2025 financial year. Wizz Air is listed on the London Stock Exchange under the ticker WIZZ.

Wizz Air has also been recognised as the “Most Sustainable Low-Cost Airline” from 2021 to 2025 by the World Finance Sustainability Awards. In 2025, Wizz Air outperformed major airlines in emissions rankings, as reported by Cirium, an aviation analytics company, thanks to its efforts to reduce emissions intensity. Most recently, the airline was awarded Sustainable Airline of the Year 2025 at the Airline Economics Sustainability Awards Gala in September 2025. [Informazioni su Wizz Air](#)
